

Sprint 3 Plan: The Starving Slug 1.0 (Completion Date: 2/21/2018) (Revision 1: 2/21/2018)

- Goals: Our goal for this sprint is to finish the search system and frontend-backend integration for users and recipes
- Task Listing, organized by user story
 - As a user, I want to be able to search for recipes
 - Add the functionality to search for recipes based on current ingredients if have the time
 - Create a page that displays search results
 - As a user, I want to be able to view another user's recipes and bookmark them to my own profile page, so that I can build a library of recipes
 - Create bookmark button on recipe page that saves the recipe link in the user's library
- Team Roles
 - Tianyi Zhang: Team Member, Developer
 - Justin Ramiscal: Product Owner, Developer
 - Danny Boyd: Team Member/Developer
 - Karen Lee: Team Member/Developer
 - Kevin Loi: Team Member/Developer
 - Shashank Guduru: Team Member/Developer
- Initial task assignment
 - Tianyi Zhang:
 - Backend integration for comments and rating
 - Justin Ramiscal
 - Create the search page that displays the search results
 - Danny Boyd:
